

# La météo du monde

Developing reading comprehension skills on the theme of weather linked to geographical awareness

# Overview

## In this document

Students apply knowledge of weather vocabulary to determine which places in the world are being described through typical weather conditions.

- 1) Print-out slide 4 and give to pairs of students in cut-out text strips.
- 2) Show slide 1 and ask students to lay out the text strips on the table in the same order as the places on the slide.
- 3) Reveal the answers using fly-out animation clicks.

As a follow-up task, students use some of the key structures and vocabulary to create a similar text about their own local area.

région	météo
Bagdad, Irak	
Moscou, Russie	
Sydney, Australie	
Nord de la Suède	
Berlín, Allemagne	
Ténérife, Espagne	

<b>E</b>	Il ne fait jamais très froid. En été de juin à septembre il fait très chaud (souvent plus de 40 degrés). Il ne pleut jamais pendant les mois d'été.
<b>D</b>	En été (de juin à août) il fait agréablement chaud mais en hiver il fait très froid (au dessous de zéro) et il neige beaucoup.
<b>A</b>	Il ne pleut pas beaucoup mais parfois il pleut en mars. Il ne neige jamais. L'été est de décembre à mars et il fait très chaud.
<b>F</b>	Il fait très froid en hiver et il y a de la neige de décembre à avril. Pendant quelques semaines en été, le soleil brille pendant 24 heures.
<b>B</b>	Il fait assez chaud en été mais souvent assez froid en hiver. Le mois le plus chaud est janvier.
<b>C</b>	Il y a du soleil et il fait chaud toute l'année. Il fait très chaud de juillet à septembre. Il pleut parfois mais jamais en juin ou en juillet. Il y a souvent un peu de vent sur la côte.
