How to Search and Book Courses

Guidance for Hampshire Academies and non-Hampshire schools

Updated October 2025

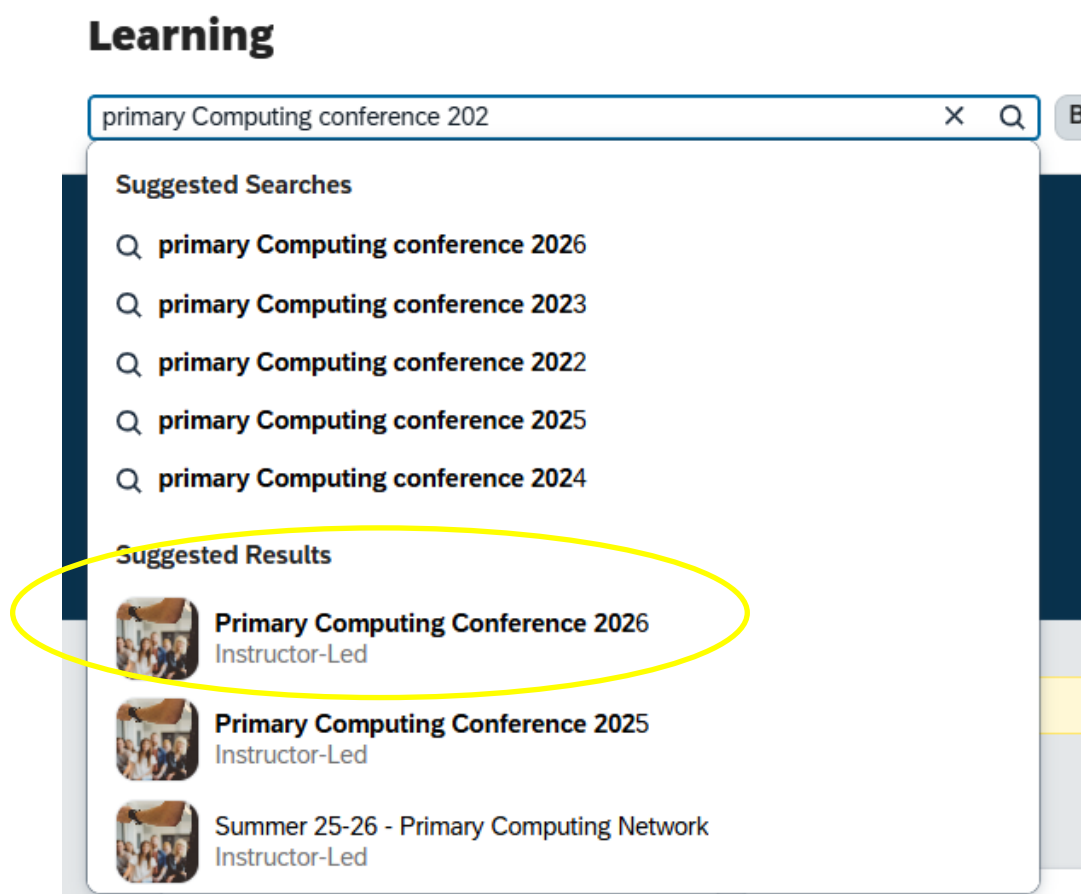

Searching for a course

Use the **Search for Learning** box on the top left of the My Learning page. This is the easiest and quickest way of searching, particularly when you're looking for a specific offer.

Type in the keyword search or full title in the search field. **Suggested Results** will show the course options for that search in bold.

You can check all the keywords for HIAS training courses on our current [HIAS training offer Moodle page](#), or on the courses information pages of the individual subject Moodle sites.

Select the course from the **Suggested Results** drop-down menu to open it in a new tab, where you can view the full course details and upcoming classes.

- Scroll down and click on **Upcoming Classes**, then click on the date tile to take you to the booking screen with the **Add to Cart** button.
- **DO NOT CLICK** on Assign to Me, or Bookmark as these will **not** make a confirmed booking and you will **not** be registered on the course.
