Course information

This directory contains details of the courses available to book as part of our core training offer to Isle of Wight primary schools for 2023-24. This year we are offering:

- English and Maths Core Provision programmes
- Termly curriculum networks for Art, Computing, Design & Technology, Geography, History, MFL, PDL, RE and Science

Our assessment team is currently reviewing the training programme for schools in light of recent key changes to primary assessment. Information about our assessment offer for Isle of Wight schools will be added to this directory and communicated to headteachers at the start of the summer term.

It is anticipated that further courses will be added to the programme on a termly basis in line with the emergence of new priorities. In addition, Isle of Wight schools will be able to book on any Hampshire virtual or face to face events throughout the year.

Training delivery

In response to feedback from schools, we will be returning to a higher proportion of venue based training sessions in 2023-24. The English and Maths subject leader meetings that form part of our Core Provision programmes will be a mixture of face to face and virtual sessions. Our curriculum networks will also be a blended offer, with the Summer 2023 and Spring 2024 sessions delivered face to face and the Autumn 2023 network set up as a virtual session.

Please note: all venue based sessions are identified by an * in the subject network overview information.

All network sessions will include standard agenda items centred around:

1. Effective subject leadership
2. Subject progression and sequencing, to include representation in curriculum statements
3. Effective use of assessment to meet the needs of all pupils
4. Sharing of subject specific knowledge and resources
5. Sharing of good practice and ideas

Each subject adviser will also respond to the needs of the group and the context of schools on the island as the year progresses.

Session dates and times

In order to simplify planning and logistics for schools, we have once again scheduled our English and Maths Core Provision and curriculum network sessions on Thursday afternoons from 14:30-17:00. We would recommend that schools **plan ahead and book all three termly subject networks in advance** to ensure that that session dates are confirmed in staff diaries at the beginning of April.

How to book

Schools are invited to book training via our Learning Zone. The login page can be accessed here <https://www.hants.gov.uk/educationandlearning/learning-zone>. We recommend that you save the login page as a 'Favourite' for quick and easy future access.

Please note:

- The booking guidance for Core Provision is slightly different. Please refer to the IOW English & Maths Core Provision Programmes 2023-24 - booking guidance document on the Moodle for further information. **Important:** Headteachers do not need to be booked on Core Provision, links will be sent to subject leaders to share with their headteacher. There is no additional charge for Headteachers to attend these briefings.

Learning Zone accounts

Most Isle of Wight school users will already have a Learning Zone account. Any staff without a user ID and password and any new members of staff will need to individually register for a Learning Zone account using their unique school Registration Code, Organisation ID and Customer Number. These codes have previously been sent to headteachers/schools. Administration officers and schools can email Samantha.jakeman@hants.gov.uk to check this information, if unsure.

Please note: Once new users have registered for an account, their name, school and EXT number should be sent to Samantha.jakeman@hants.gov.uk so that the relevant school 'Manager' can be added to their user record.

Learning Zone 'Manager' function

The Learning Zone offers 'Manager' functionality for external schools. Designated Managers can:

- assign training to other members of staff in their school
- remove learning items from employees' learning plans
- run reports on employees' learning.

If you have any queries regarding your school manager, please also contact

Samantha.jakeman@hants.gov.uk

The booking process

Searching for a course

Please note that 'keywords' have been suggested to assist you in searching and locating the courses you would like to book. Enter the keywords in the Find Learning box and press enter. This will bring the course to the top of the search results. All Isle of Wight courses have a unique **(IOW)** identifier in the course title to differentiate them from our mainland training offers.

There is a two stage booking process for booking courses on the Learning Zone:

1. The **Learning Zone Manager** assigns planned training to members of staff in their school*. Managers receive notifications to confirm assignments and when bookings are completed by users.
2. Once training has been assigned by the manager, **Learning Zone Users need to log on and complete the registration process** themselves in order to confirm the booking. This ensures they also take responsibility for their professional learning – they will receive notifications automatically to help them manage their time.

* **Important** – please can we remind Managers not to book themselves on courses in place of the correct staff member. This causes administrative issues and financial queries as additional invoices/credit will be generated in the system and sent to schools.

Booking guidance

Step-by-step booking guidance for users and 'Managers' can be accessed via our HIAS Moodle Home page <https://hias-moodle.mylearningapp.com/>. Click on the Learning Zone Guidance link on the menu and go to the Guidance for Isle of Wight schools section, or use **this link**.

Hampshire Teaching and Leadership College (HTLC) subscription

If you have taken out an HTLC subscription, you will be entitled to the subscription price for every event that you book. This is up to 20% discount against the full price booking for non HTLC subscribers. For instance, Sub: £395, Full: £475 (for English and Maths Core Provision).

Further information about our HTLC subscription offer for 2023-24 will be sent to Isle of Wight schools via a separate communication at the end of the Spring term.

HIAS SLA

Details of the HIAS element related to each course can be found at the bottom of the course overview information on the Learning Zone. If your school has a HIAS SLA, the HIAS element of the training will automatically be deducted from the course cost. If you would like to change this default setting, please contact Sam Jakeman samantha.jakeman@hants.gov.uk.

Further information about our HIAS subscription offer for 2023-24 will be sent to Isle of Wight schools via a separate communication at the end of the Spring term.

Training costs

There are standard costs for all networks, depending on whether sessions are virtual (via Microsoft Teams), or venue based (venue based sessions include refreshments).

The course prices displayed on the Learning Zone include all adjustments relating to HTLC and/or HIAS subscriptions relevant to your school.

Networks will be charged per session:

Network delivery model	Sub Price	Full Price	SLA
Virtual network	£70	£84	£55
Face to face network	£90	£108	£60

Core Provision costs

The price will remain the same as 2022-23. Prices below are per English or Maths Core Provision programme and per delegate. The cost includes all elements of the programme (please refer to Core Provision section on pages 9-12 for further details).

Sub: £395 / Full: £475 / SLA: £270

How prices are displayed on your Learning Zone

- If your school has taken out an HTLC subscription, the price shown will be the **Sub** price.
- if your school has a HIAS SLA, the price shown will be the **Full price minus the HIAS SLA element**.
- If your school has both an HTLC subscription and a HIAS SLA, the price shown will be the **Sub price minus the HIAS SLA element**.
- All training prices quoted are *per delegate*.
- **Payment for courses** - Email invoices will be generated for all chargeable events

Cancellation policy

If you cancel a place, your school will be charged **unless the cancellation is received more than 10 working days before the course begins**. In the event of extenuating circumstances where you feel this approach would be unfair, please contact HTLC.

Our Moodle sites & Moodle+ Subscription offer

Our subject Moodles offer schools easy access to resources, course materials and subject news.

All our Moodle sites can be accessed via our HIAS Moodles home page, a front door that also links you to other useful Hampshire sites and sources of information (including Services for Young Children, School Library Service, Primary Behaviour Service and EMTAS). We encourage schools to take a look and bookmark this page in their browser as a favourite to enable quick and easy navigation between our sites <https://hias-moodle.mylearningapp.com/>

Our Moodle offer includes a subscription area on each HIAS subject site that aims to draw together key “Moodle+” resources for subject leads and teachers and provides a cost effective solution to support school improvement. Each Moodle+ area is updated regularly with new resources and ideas in line with developments in thinking and policy locally and nationally. All resources are quality assured through our HIAS subject inspectors and advisers and we will also respond to subscriber suggestions for new resources that schools would find helpful.

We offer a single annual subscription covering the financial year which includes access to **all twelve** HIAS Moodle+ areas. The subscription fees enable us to continue to provide high quality content and ensure the sites are well maintained and sustainable in the long term. We have updated our **online handbook** that gives a flavour of what some of the Moodle+ areas offers and lists all the resources that are currently available.

2023-24 Subscription rates (*prices held from 2022-23)

Full access to all HIAS Moodle sites including Moodle+ resource areas:

- Isle of Wight schools with 2023/24 HTLC subscription: **£350 + VAT***
- Isle of Wight schools without an HTLC subscription: **£510 + VAT***

To subscribe to Moodle+, please complete our **Moodle+ subscription form**. The form can be completed at any time and the link is also available on the Moodle+ front page on each site.

Visit our HIAS Moodle home page to find out more <https://hias-moodle.mylearningapp.com/>

For any queries regarding Moodle+ please contact htlcdev@hants.gov.uk.

Curriculum updates

Compiled by Hampshire inspectors and advisers, the curriculum updates share examples of high-quality good practice to keep you up-to-date with subject or whole-school issues.

Subjects covered include:

- Art
- English
- Geography
- Mathematics
- Personal development learning (PDL)
- Rights and diversity education (RADE)
- Science
- Computing/ICT
- Design and technology
- History
- Modern foreign languages (MFL)
- Religious education (RE)
- Safeguarding
- Special educational needs (SEND)

Benefits of subscribing:

- Curriculum updates are a cost-effective means of getting top-level advice.
- Issued twice a year, they contain the latest ideas, thinking and information.
- Sent to you in electronic format for ease of sharing amongst colleagues.
- Subscriptions are available for all curriculum updates or for individual titles.

Subscription rates:

- £394 for all curriculum updates to be received electronically (**plus VAT**).
- £63 per individual title to be received electronically (**plus VAT**).

For more information visit our website: www.hants.gov.uk/hias.

To subscribe, please complete the Subscription to [HIAS Curriculum Updates form](#).

For more information, please contact HIAS Publications team: hias.publications@hants.gov.uk.

English and Maths Core Provision

Our **Maths and English Core Provision programme** for Isle of Wight schools provide opportunities for English and Maths leaders to work collaboratively through a series of strategic meetings and subject leader networks. Content is shaped to reflect national and local priorities ensuring our subject leaders are best placed to reflect on current guidance.

Our Maths Core Provision offer includes:

- One headteacher and subject leader strategic planning and update meeting (virtual)
- four half-day mathematics subject leader meetings (delivered face to face)

Delegates will:

- develop their role, leading and managing mathematics in a school
- improve subject knowledge, and understand effective teaching and learning in mathematics
- learn how to make effective use of national and local initiatives
- develop a local professional learning community with strong partnerships
- understand how a school's Maths curriculum can meet the needs of all children
- develop resources and strategies to further enhance the teaching of their subject.

Our English Core Provision offer includes:

- one headteacher and subject leader strategic planning and update meeting (virtual)
- four half day Primary English subject leader meetings (delivered face to face)

Delegates will:

- engage in professional discourse around teaching and learning of English
- understand how to ensure that the school's English curriculum meets the needs of all children
- develop resources and strategies to further enhance the teaching of their subject.

Core Provision costs

The price will remain the same as 2022-23. Prices below are for the whole Core Provision programme and include all the training elements detailed above:

Sub: £395 / Full: £475 / SLA: £270

Booking Core Provision

Our Core English and Maths Programmes have been set up on the Learning Zone as **Scheduled Programmes**. This enables users to be automatically booked on all training elements when they complete their registration, rather than having to register separately on each of the different classes. **Important:** the booking process for these programmes is slightly different. Please refer to the Guidance for Isle of Wight schools section on HIAS Moodle **[Learning Zone Guidance page](#)**.

Maths Core Provision for Subject Leaders (IOW)

The IOW Maths Core Provision offer 23-24 includes:

- one headteacher and subject leader strategic planning and update meeting (to be delivered virtually)
- four half-day mathematics subject leader meetings (blended delivery)

Headteacher and subject leader strategic planning and update meetings

This briefing will take place at the end of the autumn term and is for the subject leaders and head teacher pairing. **Important:** Headteachers do not need to be booked on Core Provision, links to the briefing will be sent to subject leaders to share with their headteacher. There is no additional charge for Headteachers to attend this briefing.

Attendance will enable headteachers to:

- keep up to date with national issues and recent reports and research in primary mathematics
- engage with the key priorities in mathematics across the Isle of Wight
- reflect on the use made of Core Provision input and materials to improve teaching and learning, reviewing the impact for all pupils, particularly for those pupils who are vulnerable or with SEND
- share views on future themes in Core Provision meetings
- keep up to date with developments in materials and resources provided by the Hampshire and Isle of Wight mathematics team

Subject leader meetings

These meetings keep subject leaders up to date with national and local updates alongside enhanced thinking around teaching and learning skills and their place within mathematics. Delegates are supported to develop resources and strategies to further enhance teaching and learning in the subject.

Attendance will enable subject leaders to:

- keep up to date with national issues and recent reports and research in primary mathematics
- engage with the key priorities in mathematics across the Isle of Wight

Curriculum Networks

Primary Art Networks (IOW) – Webinar

Course Summary:

Summer Primary Art Network 2023 (IOW)
Autumn Primary Art Network 23-24 (IOW)
Spring Primary Art Network 23-24 (IOW)

To support the role of the art subject leader and the development of a rich and meaningful art curriculum.

Learning outcomes

- Appreciation of the requirements for robust Art management.
- How to prepare for a deep dive into art for Ofsted.
- Considerations for an effective art curriculum, to include representation in a curriculum statement, planning and assessment.
- What does effective progression look like in art and how learning journeys (sequencing) can be used to support this.
- Effective monitoring in art.
- Sharing of subject specific knowledge and resources.
- Sharing of good practice and ideas.
- Effective use of sketchbooks.
- How can we meet the needs of students with SEND?
- Retrieval practice and strategies
- Opportunities for practical skills building.

Audience: Teachers/ LSA/ SLT/ Art subject leaders

Delivery: Blended

Presenter: Jayne Stillman

No of Sessions: 3 sessions

Dates & Times:

Primary Design & Technology Networks (IOW) - **CANCELLED**

Summer Primary Design & Technology Network 2023 (IOW)
Autumn Primary Design & Technology Network 23-24 (IOW) - Webinar
Spring Primary Design & Technology Network 23-24 (IOW)

This network meeting is for IOW schools and will offer a valuable opportunity for teachers to participate in practical and theoretical activities and meet other teachers to share ideas and thoughts about design and technology in the classroom. Participants will gain inspiration and ideas for different starting points and projects for all year groups across the primary age range.

Learning outcomes**Course Summary:**

- Greater knowledge and appreciation of Design and Technology skills and techniques to use for teaching and learning.
- Supplement Design and Technology planning with new creative and innovative ideas and opportunities.
- Revise planning to address National Curriculum requirements and consideration for progression of learning in Design and Technology, as appropriate.
- Challenge current practice with the introduction of a broader range of skills
- The creation of resources to use in the classroom.
- Enhance planning with further opportunities for increasing pupils' motivation and achievement with additional approaches and materials.
- Confidence and enthusiasm for the subject following practical investigations and collaborative networking.

Primary Geography Networks (IOW)

Summer Primary Geography Network 2023 (IOW) Autumn Primary Geography Network 23-24 (IOW) - Webinar Spring Primary Geography Network 23-24 (IOW)

The geography networks provide knowledge and understanding of the geography discipline as well as ideas and advice for geography subject leaders to improve the provision of geography in their school. A high-quality geography curriculum can only be developed when an understanding of the National Curriculum and the subject are applied to the individual context of a school.

Learning outcomes:

Summer

- Fieldwork – putting geography at the heart of school and local based studies
- What is the age-related geographer and how do we assess this?
- Sharing of good practice and resources

Autumn

- Effective assessment
- Memory, spaced practice and interleaving
- Sharing of good practice and resources

Spring

- Geography for all – inclusive planning
- Supporting students to develop geographical vocabulary
- Sharing of good practice and resources

Primary History Networks (IOW)

Summer Primary History Network 2023 (IOW) Autumn Primary History Network 23-24 (IOW) - Webinar Spring Primary History Network 23-24 (IOW)

Teachers will gain deep subject knowledge both in terms of how to teach great history as well as how to plan the history curriculum through key stages 1 and 2.

These sessions are designed for IoW subject leaders for history, to ensure they are thoroughly familiar with leading and managing the implementation of national curriculum for history in their primary school as well as confident to lead the development of high-quality teaching of history across their school.

Learning outcomes

Course Summary:

- Become familiar with, and reflect on, the expectations of all aspects of the National Curriculum for Primary History
- Gain confidence in leading and managing history across the primary school
- Know how to teach high quality history in the primary school
- Know how to plan quality history curriculum with good progression across the primary school
- Gain in confidence to ensure the history curriculum is inclusive and diverse, as expected in the 21st century
- Know how to resource their school's history education by linking with the Hampshire History Curriculum Centre and other educational organisations on and off the IoW
- Consider how a high-quality history education will contribute to the broad balanced education being received by the children in your school

Primary MFL Networks (IOW)

Summer Primary MFL Network 2023 (IOW) Autumn Primary MFL Network 23-24 (IOW) - Webinar Spring Primary MFL Network 23-24 (IOW)

MFL Primary subject leader network meetings will bring colleagues together to understand and share great practice in developing MFL in Primary schools. They aim to facilitate regular and meaningful collaboration, as we work towards our vision of a rich and engaging MFL curriculum and the development of confident and innovative teachers of MFL.

Course Summary:

Learning outcomes:

- To provide support for the development of subject knowledge and curricula for MFL Primary subject leads and teachers
- To develop excellent planning for short, medium and long term enjoyment and success
- To introduce subject colleagues to one another and to begin developing strong and lasting collaboration at island-wide and local level
- To establish a sustainable model for connecting Primary and Secondary MFL subject leaders, with the aim of establishing an exciting culture of collaboration and progression

Primary RE Networks (IOW)

Summer Primary RE Network 2023 (IOW) Autumn Primary RE Network 23-24 (IOW) - Webinar Spring Primary RE Network 23-24 (IOW)

These sessions are designed to enable RE leaders managers to explore, share and develop good practice in RE in their schools. The sessions will focus on helping other staff to understand the cycle of enquiry, know the range of concepts in the Living Difference IV syllabus, create and amend planning for RE and help understand assessment issues across the school. It will also provide further information and advice for golden threads, overview studies and Ofsted guidance for RE leaders and in supporting the SMSC development of children in school.

Course Summary:

Learning outcomes

- Review the requirements for RE using Living Difference 144 IV
- Plan and consider best practice with the enquiry into concepts approach.
- Be able to teach and plan creatively using the cycle of learning.
- Be able to develop higher order questioning and thinking in RE.
- Review how their school assesses RE using the syllabus End of Year Expectations
- Moderate RE work together
- Provide advice for creating a Long Term Plan for RE that is compliant with the Locally Agreed Syllabus, Living Difference IV
- Consider how to use RE to support the SMSC development of children

Primary Science Networks (IOW)

Summer Primary Science Network 2023 (IOW) Autumn Primary Science Network 23-24 (IOW) Spring Primary Science Networks 23-24 (IOW)

These afternoon network groups provide a forum for science coordinators to work collaboratively on improving the teaching and leadership of science. These network sessions will help you to continue to develop your curriculum, with the focus on the learning, teaching and assessment of substantive and disciplinary knowledge.

Course Summary:

Learning outcomes

- How we can continue to help children improve their scientific thinking, and their confidence in working as a scientist.
- Approaches to effective teaching and learning within primary science.
- Approaches to developing and recording scientific knowledge.
- Sharing of good practice and ideas
- Effective assessment, both formative and summative.
- Meeting the needs of students with SEND
- Effective monitoring of science over the year (including safety)
