

Primary Network: Developing a Robust Pupil Premium Strategy 2022 - 23

In light of the statutory [DFE Pupil Premium Strategy templates](#), schools have been seeking further support to ensure strategies are robust in securing the best outcomes for pupils. This network aims to support primary leaders in developing meaningful, research-informed strategies to tackle educational disadvantage and to securely embed these strategies into day-to-day practice.

Sessions will provide the opportunity to:

- access national and local updates
- engage in the process of developing an effective strategy
- explore research evidence and guidance materials and what these mean in practice
- share strategies across schools, working together to explore strengths and next steps
- experience bespoke training in response to identified needs
- network with other school leaders to enable ideas, questions, and approaches to be shared across schools

Delegates should attend one session in the autumn and one in the spring.

Date/Time

Summer
