

Primary Tackling Educational Disadvantage Network 2023-24

Since the introduction of the new DFE Pupil Premium Strategy templates, schools have been seeking support to ensure strategies are robust. This network aims to support primary leaders in developing meaningful, research-informed strategies to tackle educational disadvantage and to securely embed these strategies into day-to-day practice.

Sessions will provide the opportunity to:

- Collaborate and network.
- Engage in the process of developing an effective strategy.
- Experience bespoke training in response to identified needs.
- Understand practical approaches being used by school leaders.
- Access national and local updates and the latest research evidence.
- Explore research evidence and guidance materials and what these mean in practice.
- Share strategies across schools, working together to explore strengths and next steps.
- Network with other school leaders to enable ideas, questions, and approaches to be shared across schools.

Delegates should attend one session each term.
