

## Leading more than one school. A network for Executive Headteachers, and Heads of School / Deputy Headteachers

### Connected but unique – working together

**Intended for:** Executive headteachers, **and** Heads of Schools and Deputy Headteachers.

These sessions have been redesigned in recognition of the broader strategic leadership challenges which are specific to leaders of federated schools.

The sessions aim to facilitate conversation and deepen the networking between Executive Headteachers and Heads of School / Deputy headteachers from Havant and East Hants.

The first session will focus on networking, understanding each other's context and identifying similar successes and challenges. The outcome will shape the content of the following sessions to meet your current needs in addition to the foci already planned in light of last year's Head of School meetings.

**With:** Cherry Chope, HIAS Primary Phase Inspector/Advisor
